Encourage Your Child To Eat Smart And Move More

BE PATIENT
Young children may not be interested in trying new foods. Offer a new food more than once. It sometimes takes up to ten tries before a child will like a new food.

BE A PLANNER
Most children need a snack or two in addition to three regular daily meals. Plan and schedule meals and snacks so that children have a routine.

BE A GOOD ROLE MODEL
What you do can mean more than what you say. Your child learns from you about what to eat and how to move. Eat meals with your children whenever possible. Walk, run, and play with your children, don’t just sit on the side lines. A family that is physically active together has lots of fun!

BE ADVENTUROUS
At the grocery store, ask your child to choose a new vegetable or fruit. At home let them help wash and prepare the food. Encourage all family members to enjoy a variety of foods.

BE CREATIVE
Get your children involved in food preparation. Children are more likely to try new foods if they help get them to the table.

The Breakfast Club

Your mother always told you that breakfast was the most important meal of the day. Well, she was right. Children do better in school when they have a good breakfast. Getting children ready, yourself ready...it’s a lot to do in the morning. However, the first meal of the day does not have to be a hassle. It can be quick, fun, and eaten on the run if necessary.

Here are a few tips for you and your family to break the fast:

• A peanut butter and banana sandwich and glass of milk is a favorite. It gives them calcium, protein, and one serving of fruit.
• Top cold or hot cereal with fresh or canned fruit.
• A cereal bar and milk make a great, quick, on the run breakfast when you don’t have time for a sit-down meal.
• Yogurt in a “to-go” tube is a good way to get a quick dose of calcium.
• Bagels with fruit spread or low-fat cream cheese are great on the go.
• Make egg sandwiches the night before, wrap tightly in plastic wrap and microwave to warm slightly in the morning for a quick breakfast.

Indoor Play

It’s raining, it’s cold, it gets dark too early, and you feel your neighborhood is unsafe. All these point to the need to be physically active indoors. Make a fun area in the house for indoor play. Be creative so your children can stay active even if they cannot go outdoors.

• Turn on the music and dance. (Dance like a bird, elephant and other animals).
• Build a fort under the table or in a large box.
• Play on the stairs.
• Hop on one foot, hop on both feet, spin in a circle, call out different moves for your child to try.
• Play limbo using a broom and music.
• Play running games. Place a target (pillow or placemat) on the floor and ask children to run around and over it.
